Title	Effective Strategies for Managing Personality
Date	18-08-2023 to 19-08-2023 Time: 9.30 AM to 4.00 PM
Beneficiary	Ethiraj College & Other College Staff
Venue	MCA Lab
Speaker	Mr. FRANKLIN RAJA R

DAY 1

The first day session was about inter-personal skills. The inter-personal skill and personality are like a train track because they go parallel. He conveyed the interpersonal skills through an activity, in which we were separated as groups where we asked to name our group, list out ten words and were asked to make a story with those words. Students were asked to volunteer to narrate the stories, which is implied to push our self and grab the opportunity in our work space too.

The mentor later on specified the interpersonal skills gained from the group activity the skills are communication, listening. Teamwork, accepting other opinion, involvement and leadership. Every one came up with an unique story and actively participated.

He shared his opinion on personality is not only based on appearance but it is on the positive attitude of us. He explained the do's and dont's In-terms of personality. The don'ts are 1. Showing off, 2. Rejecting feedback, 3. Overconfidence and 4. Not being grateful. The do's are Projecting us when ever the opportunity arrives, and accepting opinions.

DAY 2

The second day session was about the interview skills and resume, we should grasp the opportunity before assuming about it, we have three stages of interview that is 1. Pre-interview preparation, 2. Interview requirement, 3. Post-interview requirement. We gained some knowledge about the resume preparation.

The pre-interview preparations includes searching job in online job portals, company websites or reference, as he is a HR he suggested us to send the mail in a proper format. Interview requirement requires knowledge about the company and the position we applied for, we must be in the company before 15 minutes, he also shared his experience of the candidates whom he has interviewed. Post interviews includes regular follow ups, collecting feed back if we are rejected and analysing the mistakes.

In resume preparation we must be aware of the content which should be specified and which should be avoided, the resume must be in one page, it should have some proof about the skills we specified in the form of our projects and internships. We must specify the area of interest and certificates we earned.

The personal details includes name, date of birth, father name and address must be mentioned in right corner of the resume, educational details it must be from higher one, objective should be specified based on the job role, declaration and fake details must be avoided. We had an informative and interactive session which is very useful for the personality development and interview skills.
